The UTSA READY Program is an early awareness, academic preparation bridging program for high school juniors and seniors (11th and 12th grade students). The Program helps students polish their reading, writing and mathematics skills in preparation for college level course work. The UTSA READY Program takes a holistic approach to student college preparation and success by addressing both cognitive and non-cognitive skills. Developed by UTSA Faculty and staff, the curriculum addresses college survival skills and academic preparation for the rigor of college level coursework.
